INGROWN TOE NAIL
How to Toughen Skin so Nail Turns Out Itself

A few droppings of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost over night.

"Outgro" is a harmless, antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.—Advertisement.

History's Fatal Mistake Founded Beauty Science of Today

By VERNON RADCLIFFE

YEARS ago in Florence, Benvenuto Cellini, decided to accomplish a perfect work of art. He secured a model, and gilded the living body from head to foot. The result was beautiful but mistaken. When the pores were all closed by the gilt—within two hours, the child died. Cellini's idea has not been outgrown. It persists with the modern complexion.

Closing the Pores To-day
To-day the care of the complexion has become increasingly necessary, increasingly hard.

The trains roar back and forth. The streets throb continuously from the exhausts of motor cars. The factories seep down clouds of sooty vapor. Beauty has been fading earlier and earlier.

For, despite the dust and impurities that modern life forces deep down into the skin, we still further impose soaps, creams, lotions and cosmetics. Have you assurance that tired Nature can expel the added burden in the pores?

Your Skin Must Breathe
These impurities, lodged at the very bottom of the pores, cause practically all complexion blemishes—blackheads, dry skin, enlarged pores, oily skin, pimples and sallowness.

These impurities must come out. Nothing put on the face can possibly be of benefit if the pores beneath are clogged, and to-day they are clogged as they never were before. A skin cannot be healthy, a complexion cannot be beautiful, if clogged pores do not permit the skin to breathe, to eliminate, to throw off impurities. When the pores are free and functioning the complexion has a natural glow. When they are clogged, fermentation

sets in, the face sinks into sallowness, wrinkles and blemishes.

Old Treatments Fail
Women have turned in desperation to massage, the vigorous action of human hands. But unscientific face massage has made more old women than age. Under guise of a benefit, it is a wholesale destroyer of beauty. To parboil your skin with half scalding water, and knead and maul the muscles of your face is bound to be injurious. A minute's thought will tell you so. It stands to reason that it breaks down tissue. Massaging will not even cleanse properly, that is down to the bottom of the pores. It merely slicks off the surface. It does not remove dirt, foreign substances and impurities from the place where they do the real damage—down below the surface of the skin. Your Beauty Specialist will tell you so.

Vivaudou's Discovery
Very recent has been the complete change in beauty method by the best specialists and parlor. Victor Vivaudou, famous perfumer, discovered that the best Beauty Shops in this country were using a preparation so wonderful and immediate in its effects upon the complexion, that he arranged for its sole distribution in the home. He says, "Here in America, I have found the one thing which ladies in Paris and all over the world have yearned for—a care of the complexion which is once natural, convenient and successful—MINERALAVA."

"I have seen its amazing benefits—its amazing success. It is delightful to use. No more wonderful contribution to comfort and cleanliness has ever been devised!"

Answers Modern Needs
Mineralava is the one way to a good complexion—the best way—so startling, so revolutionary in idea, so different from any treatment that you have known that you cannot afford not to know it—to try it.

Instead of being just one more thing to put on the face, to rub in the face, add to the accumulation of grease and impurities in the pores, Mineralava takes out. It cleanses the clogged pores—washes off—and is gone, all in twelve minutes.

What Mineralava Does
Mineralava, Nature's Beauty Clay, originated by Mrs. M. G. Scott and perfected by her through 23 years of scientific research and experiment, is applied wet to the face, neck and hands, and accomplishes two important results—impossible with other preparations. It draws impurities from the pores and it tightens sagging muscles.

As it dries it contracts, and you can feel its medicinal ingredients penetrating the depths of the pores. You can feel it withdrawing foreign matter, leaving the pores free and clean.

You can feel the wrinkles being smoothed out. You can feel the flabby skin being made tight and firm. You can feel the cleansing purifying blood tingling through each tiny vein. When Mineralava is thoroughly dry, cold water easily removes it.

Mineralava—Cold Water Face Finish
Immediately, a blooming youthfulness glows and radiates from the cheeks. The long stifled face pores breathe again.

Mineralava Face Finish is a necessary skin food and tonic, acts as a mild bleach and forms a perfect base for your face powder. It has amazing benefit because you can apply it at the proper time, after the pores are cleansed. Lasting results follow from the use of Mineralava, the cleanser, Cold Water, the invigorant, and Face Finish, the food—in combination.

Lasting Beauty of Complexion
Continue this treatment regularly twice a week and we guarantee, whether you are sixteen or sixty, a marked improvement in your complexion—reducing blackheads, pimples, enlarged pores, wrinkles, blemishes of all kinds—preserving beauty and youthfulness.

Ask for Mineralava TO-DAY
Go to your druggist or department store to-day and ask for the Mineralava set containing fifteen home treatments. If yours has not got it, do not be satisfied with an imitation. Write Mrs. Scott herself. She will gladly inform you where it may be obtained. You may try Mineralava right away by mailing the coupon with 25c for the demonstration tube of two full treatments.

Manufacturer's Note: Mineralava contains absolutely nothing which can harm the most delicate skin. We guarantee it, and will refund your money if you are not satisfied after one treatment. Scott's Preparations, Inc., 6 East 37th Street, New York City.
